   j) Cisco CCNA Security (640-553): requirements (2 week class)
   k) EC-Council Certified Ethical Hacker (CEHv9): requirements (2 week class)
   l) Microsoft Server 2012 R2: requirements (2 week class)
   m) Microsoft Windows 10 (70-697): requirements (2 week class)
   n) Risk Management Framework (RMF) (No voucher): requirements (1 week class)
o) Cyber- Digital Master Gunner (C-DMG) (No voucher): requirements (3 week course)

p) Offensive Scripting (2 week course) or Advanced Exploitation (3 week course): requirements

9) APPENDIX A: User instructions for requesting class enrollment

10) APPENDIX B: Course POC instructions to approve/reject enrollment requests

1. OVERVIEW:

a. The US Army Chief Information Office/G6 (CIO/G6), Cyber Security (CS) Directorate, has contracted the Cyber Leader College and the US Army Communications-Electronics Command (CECOM) to provide DoD 8570.01-M baseline certification training and Computing Environment (CE) Training for Army Organizations. The MTTs are contracted to provide mobile training to Army Organizations to decrease the funding cost of personnel travel. The teams are dedicated to training the CS Workforce to a standard that is in-line with the requirements of DoD 8570.01-M, Information Assurance Workforce Improvement Program (IAWIP), and AR 25-2, Army Information Technology. The Teams are detailed to provide training to Military, DA Civilians, and DoD Contractors working in Technical, Management and Specialty categories in computing, network and enclave environments.

b. The training is not for individuals trying to obtain CE credits or for career progression. On-line training provided through Army E-Learning (Skillport), Federal Virtual Training Environment (FedVTE), and Information Assurance Support Environment (IASE) (sponsored by Defense Information Systems Agency (DISA)) are free and accessible to all Military, DA Civilians and DoD Contractors working on a government CS service contract. CS Workforce personnel need to use these venues to obtain the training to satisfy most, if not all, of their CE credits. The majority of the training on these sites is up-to-date and provides great sustainment training for proficiency and CE credits.

c. All MTT courses must be hosted by an Army Organization. Personnel from other services (i.e. Air Force, Marines, Navy, and Coast Guard) who are part of their CS workforce can attend if seats are available. Training must be completed via the service portal and provided to the Army POC to upload into their ATCTS profile.
2. FUNDING REQUIREMENTS:

The Organization does not incur any expense for the MTT training or the MTT instructors. Individuals participating in the Fort Gordon MTTs have the option of purchasing the textbook for their course using an ISBN provided by the MTT Coordinator or accessing books 24/7 (http://skillport.books24x7.com/login.asp) to view books online. All other materials/books for the other classes will be provided by both CECOM and Fort Gordon MTTs.

3. PURPOSE:

To provide training for a group of CS Workforce personnel who are in positions requiring it in order to meet the Training and Certification Requirements per DoD 8570.01-M, AR 25-2, and the Training and Certification Best Business Practice. Training requests can be sent to the MTT Coordinators for each site: Stacey Garrett, stacey.l.garrett.ctr@mail.mil (CECOM MTTs), and Charmisse Owens, charmisse.m.morency.ctr@mail.mil (Fort Gordon MTTs). Any changes to the course schedule must be sent to the MTT POC no later than 3 weeks prior to the start of any course. Please cc usarmy.belvoir.hqda-cio-g-6.mbx.training-and-certification@mail.mil group box on all correspondences. CIO/G6 gives the final approval for all training requests.

4. COURSE AND TESTING INFORMATION:

A minimum of 12 and maximum of 16 individuals are required for CECOM MTTs, with the exception of RMF, where the maximum is 20. A minimum of 12 and maximum of 20 individuals are required for Fort Gordon MTTs.

Both MTTs can provide instruction for Security+, Network+, CEH, CISSP and CISM.

In addition, the CECOM MTT can provide the following: Windows 10, Server 2012, Server 2016, SharePoint 2013, CAP, ICNDI (CCENT), ICNDII (CCNA), CCNA Security, RMF, ACAS, Offensive Cyber Operations (OCO), Defensive Cyber Operations (DCO), Offensive Scripting and Advanced Exploitation.

CECOM MTT also provides the Cyber-Digital Master Gunner (C-DMG) 3 week course. This course covers offensive and defensive tools, how to protect the Department of Defense Information Network (DODIN), and Incident Response Procedures. No commercial exam is offered for this course.
Both MTTs’ instructors can proctor the Security+, Network+, and CEH exams on the last day of class.

The CECOM MTT instructor can also proctor the following tests: A+, CISSP, CAP, ICNDI/ICNDII, CCNA Security, and any Microsoft Certifications.

All courses are 5 days in length, with testing held on the 5th day. This excludes A+, CISSP, CASP, CCNA Security, CEH, and Offensive Scripting, which run for 10 days; as well as Advanced Exploitation and C-DMG, both being 15 days in length.

5. VOUCHER REQUIREMENT:

Exam vouchers to take the commercial certification exam on the last day of class can be requested through CIO/G6 by completing the voucher request form found on ATCTS. Vouchers are provided to DA Civilians and Military personnel only. Contractors are responsible for providing their own voucher if testing. Personnel requesting a voucher must be appointed on letter to a valid position that requires the certification (which must be uploaded onto ATCTS, and have completed any requirements listed in any subsection of section 9. There are no exceptions.

**Attending the MTT is not a substitute for the on-line training. Training must be completed 3 weeks prior to the first date of class**.

6. REQUESTING ORGANIZATIONS’ REQUIREMENTS:

a. The requesting Organization is responsible for approving or denying enrollment for personnel not meeting the position and/or training requirement. All approvals and denials will be provided through ATCTS. Instructions for users and course POCs are in Appendices A and B respectfully.

b. Course POCs are responsible for ensuring all pre-class on-line training through Skillport, Fort Gordon Cyber Security Training Center, DoD MeasureUp, and FedVTE systems are completed at least 3 weeks before the first day of class. If the course POC does not have view of the individuals’ profile, an email must be sent to usarmy.belvoir.hqda-cio-g-6.mbx.training-and-certification@mail.mil requesting assistance. Contractors may request access to Skillport in order to complete the pre-class training by completing and submitting the Contractor Skillport Request Form to usarmy.belvoir.hqda-cio-g-6.mbx.training-and-certification@mail.mil. This form can be found on ATCTS website, on left side of page under Compliance Information >> Documents >> Other Documents.
7. TRAINING AND DOCUMENTATION REQUIREMENTS and LOCATIONS:

a. All training and documentation requirements must be completed at least 3 weeks prior to the first day of class. If the training is not completed, the individual will be excluded from the class roster and not be authorized to attend training. If less than the minimum of 12 workforce personnel complete the requirements, the training will be cancelled and the requesting organization will have to submit a new request to reschedule.

b. Location of class enrollment, pre-training, and documentation:

   i. ATCTS:  [https://atc.us.army.mil](https://atc.us.army.mil)

   iii. Skillport (Army E-Learning):  [https://usarmy.skillport.com](https://usarmy.skillport.com) – All required Skillport training is located under Catalog >> CIO-G-6/Cyber Security IA/IT Training  Note: Most Computing Environment training modules are now Learning Programs – You must enroll first

   v. DoD MeasureUp pretest:  [http://dod.measureup.com](http://dod.measureup.com) – First time users must register – These procedures are listed on the ATCTS website, left side of the page under Pre-Assessment Test Information

   vi. Duty appointment letter and Privilege Access Agreement templates:  This form can be found on the ATCTS website, left side of page under Compliance Information >> Documents >> Templates (appointment letter) / Compliance & Regulation Information Documents (PAA).

   vii. Voucher request form:  ATCTS Home page >> Documents >> Voucher and Assessment Documents & Information >> Voucher/AMF Request Form

8. COURSE REQUIREMENTS (to be completed 3 weeks prior to the start of class):

a. CompTIA A+ (220-901/220-902): requirements (2 week course)
i. Register in ATCTS (https://atc.us.army.mil)

ii. Appointed to an IATI position – Upload duty appointment letter and Privilege Access Agreement to ATCTS

iii. Enroll in the class in ATCTS – See Appendix A for instructions on how to enroll

iv. Complete the CS Fundamentals course on the Fort Gordon Cyber Security Training Center website (https://ia.signal.army.mil)

v. Complete both Skillport modules: Baseline Certification Training >> CompTIA >> CIO/G6 NETCOM IA CompTIA A+ 200-901; and CIO/G6 NETCOM IA CompTIA A+ 200-902 (https://usarmy.skillport.com)

vi. Take the MeasureUp CompTIA (220-901): A+ (DoD) & CompTIA (220-902): A+ (DoD) Pre-assessment test (http://dod.measureup.com) – Must obtain at least an 80% on each pretest and send to your ATCTS manager for upload

vii. Complete the voucher request form, obtain all signatures, and send to your ATCTS manager for upload

viii. Must take certification exam on the last day of class or within 30 days after receiving the voucher

a. CompTIA Network+ (N10-006): requirements (1 week course)

i. Register in ATCTS (https://atc.us.army.mil)

ii. Appointed to an IATI position – Upload duty appointment letter and Privilege Access Agreement to ATCTS

iii. Enroll in the class in ATCTS – See Appendix A for instructions on how to enroll

iv. Complete the CS Fundamentals course on the Fort Gordon Cyber Security Training Center website (https://ia.signal.army.mil)

v. Complete the Skillport modules: Baseline Certification Training >> CompTIA >> CIO/G-6 NETCOM IA CompTIA Network+ 2014 (https://usarmy.skillport.com)
vi. Take the MeasureUp CompTIA Network+ (N10-006) (DoD) pre-assessment test (http://dod.measureup.com) – Network Technologies – Must obtain at least an 80% and send to your ATCTS manager for upload

vii. Complete the voucher request form, obtain all signatures, and send to your ATCTS manager for upload

viii. Must take certification exam on the last day of class or within 30 days after receiving the voucher

b. CompTIA Security+ (SY0-401): requirements (1 week course)

i. Register in ATCTS (https://atc.us.army.mil)

ii. Appointed to an IATII or IAMII – Upload duty appointment letter and Privilege Access Agreement (for IAT level only) to ATCTS

iii. Enroll in the class in ATCTS – See Appendix A for instructions on how to enroll

iv. Complete the CS Fundamentals course on the Fort Gordon Cyber Security Training Center website (https://ia.signal.army.mil)

v. Complete the Skillport modules: Baseline Certification Training >> CompTIA >> CIO/G-6 NETCOM IA Security+ (SY0-401) or CIO/G-6 NETCOM IA Security+ (SY0-501 (https://usarmy.skillport.com). The 401 modules will not be available or accepted after 31 Dec 17.

vi. Take the MeasureUp CTIA (SY0-401): CompTIA Security+ (DoD) Pre-assessment test (http://dod.measureup.com) – Must obtain at least an 80% and send to your ATCTS manager for upload. The measureup portal should be updated with the 501 test in the next few months. Once added- only the 501 will be required.

vii. Complete the voucher request form, obtain all signatures, and send to your ATCTS manager for upload

viii. Must take certification exam on the last day of class or within 30 days after receiving the voucher
c. CompTIA CASP: requirements (2 week course)

i. Register in ATCTS (https://atc.us.army.mil)

ii. Appointed to an IATIII, IAMII, IASAEI or IASAEII position – Upload duty appointment letter and Privilege Access Agreement (for IAT level only) to ATCTS

iii. Enroll in the class in ATCTS – See Appendix A for instructions on how to enroll

iv. Complete the CS Fundamentals course on the Fort Gordon Cyber Security Training Center website (https://ia.signal.army.mil)

vi. Complete the voucher request form, obtain all signatures, and send to your ATCTS manager for upload

vii. Must take certification exam on the last day of class or within 30 days after receiving the voucher

d. ISC(2) CISSP: requirements (2 week course)

i. Register in ATCTS (https://atc.us.army.mil)

ii. Appointed to an IATIII, IAMII, IAMIII, CND-SP Manager or IASAE position – Upload duty appointment letter and Privilege Access Agreement (IAT levels only) to ATCTS (must be verified by the manager)

iii. Enroll in the class in ATCTS – See Appendix A for instructions on how to enroll

iv. Complete the CS Fundamentals course on the Fort Gordon Cyber Security Training Center website (https://ia.signal.army.mil)
v. Complete the Skillport modules: Baseline Certification Training >> (ISC)2 >> CIO/G-6 NETCOM IA CISSP 2015 (https://usarmy.skillport.com)

vi. Complete the voucher request form, obtain all signatures, and send to your ATCTS manager for upload

vii. **Must** take certification exam on the last day of class or within 30 days after receiving the voucher

e. **ISC(2) CAP: requirements (1 week course)**

   i. Register in ATCTS (https://atc.us.army.mil)

   ii. Appointed to an IAMI or IAMII position

   iii. Enroll in the class in ATCTS – See Appendix A for instructions on how to enroll

   iv. Complete the CS Fundamentals course on the Fort Gordon Cyber Security Training Center website (https://ia.signal.army.mil)

   v. Complete the FedVTE training: (ISC)2™ CAP® Certification Prep Self Study 2014-11 hours (https://fedvte.usalearning.gov/)

   vi. Complete the voucher request form, obtain all signatures, and send to your ATCTS manager for upload

   vii. **Must** take certification exam on the last day of class or within 30 days after receiving the voucher

f. **ISACA CISA: requirements (1 week course)**

   i. Register in ATCTS (https://atc.us.army.mil)

   ii. Appointed to an IATIII or CND-SP Auditor position – Upload duty appointment letter and Privilege Access Agreement to ATCTS (must be verified by the manager)

   iii. Enroll in the class in ATCTS – See Appendix A for instructions on how to enroll

   iv. Complete the CS Fundamentals course on the Fort Gordon Cyber Security Training Center website (https://ia.signal.army.mil)

vi. Complete the voucher request form, obtain all signatures, and send to your ATCTS manager for upload

vii. **Must** schedule the exam for the next ISACA testing cycle. Exams are conducted in June, September, and December each year. Registration is done through the ISACA website (http://www.isaca.org/)

g. **ISACA CISM: requirements (1 week course)**

i. Register in ATCTS (https://atc.us.army.mil)

ii. Appointed to an IAMII, IAMIII or CND-SP Manger position – Upload duty appointment letter

iii. Enroll in the class in ATCTS – See Appendix A for instructions on how to enroll

iv. Complete the CS Fundamentals course on the Fort Gordon Cyber Security Training Center website (https://ia.signal.army.mil)

vi. Complete the voucher request form, obtain all signatures, and send to your ATCTS manager for upload

vii. **Must** schedule the exam for the next ISACA testing cycle. Exams are conducted in June, September, and December each year. Registration is done through the ISACA website (http://www.isaca.org/).

**Additional information:** CISA and CISM pre-assessment exams: ISACA has developed CISA and CISM self-assessment tools for the DoD workforce to help exam candidates assess their knowledge of the exam job practice areas and determine their strengths and weaknesses. Each self-assessment contains 50 sample items covering the appropriate proportion of subject matter to match the exam blueprints. These tools are available at www.isaca.org/dodinfo. You will not need a username or password to access the self-assessments. This is open to Military, Government Civilians and Government Contractors.
h. Cisco ICNDI (CCENT) and ICNDII (CCNA): requirements (1 week course each OR 2 week course together)

i. Register in ATCTS (https://atc.us.army.mil)

ii. Appointed to an IA Technical position and hold a baseline certification – Upload duty appointment letter and Privilege Access Agreement to ATCTS

iii. Enroll in the class in ATCTS – See Appendix A for instructions on how to enroll

iv. Complete the CS Fundamentals course on the Fort Gordon Cyber Security Training Center website (https://ia.signal.army.mil)

v. Complete Skillport modules: (https://usarmy.skillport.com) Under Computing Environment Training >> Cisco:
   
   a. NEW: 200-125 – Cisco Certified Network Associate (CCNA) CIO/G-6 NETCOM IA – 200-125 – Interconnecting Cisco Networking Devices (for CCNA voucher only)

vi. Complete the voucher request form, obtain all signatures, and send to your ATCTS manager for upload

vii. Must take certification exam on the last day of class or within 30 days after receiving the voucher

i. Cisco CCNA Security (210-260 IINS): requirements (2 week course)

i. Register in ATCTS (https://atc.us.army.mil)

ii. Appointed to an IA Technical position and hold a current CCENT, CCNA, or CCIE Certification – Upload duty appointment letter and Privilege Access Agreement to ATCTS
iii. Enroll in the class in ATCTS – See Appendix A for instructions on how to enroll

iv. Complete the CS Fundamentals course on the Fort Gordon Cyber Security Training Center website (https://ia.signal.army.mil)

v. Complete the Skillport modules: Baseline Certification Training >> Cisco >> CIO/G-6 NETCOM IA 640-554 CCNA Security IINS 2.0 (https://usarmy.skillport.com)

vi. Complete the voucher request form, obtain all signatures, and send to your ATCTS manager for upload

vii. Must take certification exam on the last day of class or within 30 days after receiving the voucher

j. EC-Council Certified Ethical Hacker (CEHv9): requirements (2 week course)

i. Register in ATCTS (https://atc.us.army.mil)

ii. Appointed to one of the following CND-SP positions: Analyst, Infrastructure Support, Incident Responder or Auditor – Upload duty appointment letter and Privilege Access Agreement to ATCTS

iii. Enroll in the class in ATCTS – See Appendix A for instructions on how to enroll

iv. Complete the CS Fundamentals course on the Fort Gordon Cyber Security Training Center website (https://ia.signal.army.mil)

vi. Complete the voucher request form, obtain all signatures, and send to your ATCTS manager to upload

vii. Must take certification exam on the last day of class or within 30 days after receiving the voucher

k. Microsoft Administering Server 2012 (70-411): requirements (1 week course)

i. Register in ATCTS (https://atc.us.army.mil)
ii. Appointed to an **IA Technical** position and hold a baseline certification – Upload duty appointment letter and Privilege Access Agreement to ATCTS

iii. Enroll in the class in ATCTS – See Appendix A for instructions on how to enroll

vi. Complete the voucher request form, obtain all signatures, and send to your ATCTS manager for upload

vii. **Must** take certification exam on the last day of class or within 30 days after receiving the voucher

**I. Microsoft Administering Server 2016 (70-740/70-741/70-742): requirements (1 week course)**

i. Register in ATCTS ([https://atc.us.army.mil](https://atc.us.army.mil))

ii. Appointed to an **IA Technical** position and hold a baseline certification – Upload duty appointment letter and Privilege Access Agreement to ATCTS

iii. Enroll in the class in ATCTS – See Appendix A for instructions on how to enroll

iv. Complete the CS Fundamentals course on the Fort Gordon Cyber Security Training Center website ([https://ia.signal.army.mil](https://ia.signal.army.mil)).

vi. Complete the voucher request form, obtain all signatures, and send to your ATCTS manager for upload

vii. **Must** take certification exam on the last day of class or within 30 days after receiving the voucher
m. Microsoft Installing and Configuring Windows 10 (70-697 or 698): requirements (1 week course)

   i. Register in ATCTS (https://atc.us.army.mil)

   ii. Appointed to an IA Technical position and hold a baseline certification – Upload duty appointment letter and Privilege Access Agreement to ATCTS

   iii. Enroll in the class in ATCTS – See Appendix A for instructions on how to enroll

   iv. Complete the CS Fundamentals course on the Fort Gordon Cyber Security Training Center website (https://ia.signal.army.mil)

   vi. Complete the voucher request form, obtain all signatures, and send to your ATCTS manager for upload

   vii. Must take certification exam on the last day of class or within 30 days after receiving the voucher

n. Risk Management Framework (RMF) (No Voucher): requirements (1 week course)

   i. Register in ATCTS (https://atc.us.army.mil)

   ii. Must be working the eMASS/DIACAP/RMF process for your Organization (i.e. ISO/ISSM/ISSO/Engineers/etc.

   iii. Enroll in the class in ATCTS – See Appendix A for instructions on how to enroll

   iv. Complete the CS Fundamentals course on the Fort Gordon Cyber Security Training Center website (https://ia.signal.army.mil)

   v. Take the eMASS training located on the Army IA Virtual Training website (https://iatraining.us.army.mil) >> Under NEW COURSES (middle of the page) >> Learn how to use the eMASS application >> Follow instructions to launch the course or Complete the appropriate FedVTE Training: Cyber Risk Management
for **Technicians or Cyber Risk Management for Managers**

(https://fedvte.usalearning.gov/) **Note:** NOT Cyber Security Overview

o. Cyber- Digital Master Gunner (C-DMG) (No Voucher): requirements (3 week course)

i. Register in ATCTS (https://atc.us.army.mil)

ii. Appointed to an IATII, IATIII, IAMi or CND-SP Analyst, Auditor, Infrastructure Support, Incident Response position and hold a current baseline certification – Upload duty appointment letter and Privilege Access Agreement (for IAT level only) to ATCTS

iii. Enroll in the class in ATCTS – See Appendix A for instructions on how to enroll

iv. Complete the CS Fundamentals course on the Fort Gordon Cyber Security Training Center website (https://ia.signal.army.mil)

p. Offensive Scripting (2 week course) or Advanced Exploitation (3 week course) (No Voucher): requirements

i. Register in ATCTS (https://atc.us.army.mil)

ii. Appointed to an IATII, IATIII, IAMi or CND-SP Analyst, Auditor, Infrastructure Support, Incident Response position and hold a current Security+, CEH, or higher certification – Upload duty appointment letter and Privilege Access Agreement (for IAT level only) to ATCTS

iii. Enroll in the class in ATCTS – See Appendix A for instructions on how to enroll

iv. Complete the CS Fundamentals course on the Fort Gordon Cyber Security Training Center website (https://ia.signal.army.mil)

v. Must complete the Cyber- Digital Master Gunner, Phase I course
2. **APPENDIX A: User Instructions for Requesting Class Enrollment**

   a. **General Information:** The Mobile Training courses are for CS workforce personnel in appointed positions that need training/certification to meet the DOD 8570.01-M baseline certification requirement. This training is not targeted to meet Continuing Education credits.

      The following information and diagrams will help CS Workforce personnel navigate the MTT Classroom Training Courses feature in order to request enrollment in a course.

      Any individuals requesting enrollment for any MTT course must first have an active ATCTS account. Enrollment in training courses is restricted by CS Workforce positions as annotated in the position category and level in one’s ATCTS profile.

   b. **Procedures:**

      i. Log into ATCTS at [https://atc.us.army.mil](https://atc.us.army.mil)

      ii. Click on the “My Profile” tab. Once in My Profile, click on “MTT Classroom Training Courses” located on the left hand side of the page. A list of scheduled courses will display on the page. Filters can be used to display courses that are of interest by course name and/or location.
iii. The individual can review information about the class and registration by clicking “View Class Details”.
iv. Information about the class will be displayed on the page. The CS categories and levels authorized to attend the course will be displayed. If in a position that requires the training/certification, “Request Enrollment” (in blue) will appear on the screen. If not in a required position, it will only show “Restricted” (in red).

v. Once the “Request Enrollment” button is clicked, an email will be sent to the course POC with the request (Ex. A). Once the course POC either accepts or denies the request, an email will be sent to the user with the POC’s decision (Ex. B). The emails will be from “ATCTS System (noreply@atc.us.army.mil)”.

**Ex. A - sent to the course POC**

```plaintext
From: ATCTS System [noreply@atc.us.army.mil]
To: Wright, Doris M CTR USAFRY HQDA C1D-G-6 (US)
Cc: Wright, Doris M CTR USAFRY HQDA C1D-G-6 (US)
Subject: ATCTS Test Site User MTT Class Enrollment Request

ATCTS user Doris Wright [doris.m.wright2.ctr@mail.mil] has requested enrollment in an MTT Class for which your are the point of contact. Please login to ATCTS to accept or deny this enrollment request.

Class Information:

Security+ at District of Columbia, VA (Pentagon) on Jan 13, 2014
```
Ex. B – sent to user showing approval or rejection

vi. If enrollment has been accepted, the course will be listed in the individual’s profile under “MTT Training”.

Record On The Job Skills Practical Evaluation.
3. APPENDIX B: Course POC Instructions to Approve/Reject Enrollment Requests

a. General Information: All requests for enrollment will be accepted or rejected by the course Point of Contact (POC). Individuals will be unable to request enrollment for a class if they are not in an appointed position (on letter) which requires the certification/training. The training is to provide CS workforce personnel information to help pass the vendor’s certification exam. The training is not for individuals that need CEU credits. The free on-line training such as Army e-Learning, FedVTE and the DISA IASE courses are used to satisfy those requirements.

The following information and diagrams will help the course POC navigate the MTT Classroom Training Courses feature in order to accept or reject a request for enrollment in a course.

b. Procedures:

i. When an individual requests a seat in a course, an email will be sent to the POC requesting acceptance or denial of the enrollment request. The email will be from “ATCTS System (noreply@atc.us.army.mil)”. When an email is received, log into ATCTS at https://atc.us.army.mil to accept or deny the request.
ii. Click on the “My Profile” tab. Once in My Profile, click on “Manage MTT Classroom Training” on the left hand side of the page.

![My Profile screenshot](image_url)

iii. A list of scheduled courses will display. Find your Organization's course. This shows the number of people that have requested enrollment in the course. Click on “View”, located to the right of the class, to pull up the Student Enrollment Roster.
iv. The “Student Enrollment Roster” shows the individuals who have requested enrollment in the class. Click on either “Accept or Reject” to respond to the request.
v. The course POC will have the opportunity to add a note when 'accept' or 'reject' is selected. An additional message is not needed when accepting an enrollment request; however, when rejecting a request, an additional note is required, explaining the reason for rejection.

![Accept Enrollment for Security](image1)

vi. The course POC can reject an individual's enrollment after previously accepting it. The course POC can also export the course roster to an excel spreadsheet by clicking on “Export to Excel”.

![Export to Excel](image2)
vii. An email will be sent to the individual stating their enrollment request has either been approved or denied for the class. Again, the email will be from “ATCTS System (noreply@atc.us.army.mil)”. 

![Image of email](image1)

viii. If the individual is approved for the class, the course will be listed in their profile under “MTT Training”.

![Image of course list](image2)

ix. **Note:** The MTT instructor will carry the Official Student Roster to class. The individuals on this roster have been verified by an MTT POC as meeting all course prerequisites.
Individuals not on the roster will not be authorized to attend the class. **NO EXCEPTIONS!**
