

New Federal Virtual Training Environment: Opened to the public on 4 May 2015

1. The new FedVTE site is now open at fedvte.usalearning.gov. Please feel free to go ahead and create a user account for yourself to explore the system; and we would appreciate if you could also let your users know. Per the FedVte Program Manager, additional courses will be loaded to the system by the end of this week.
2. The communities within FedVTE only displays the Army Commands, Army Service Component Commands and Direct Reporting Units. The system is set up so other communities cannot be added. This is a Department of Homeland Security (DHS) decision not Army.
3. A powerpoint presentation is attached to display how to register. Individuals can self register but must register with their Enterprise Email address. The Enterprise Email address is the only way this office will be able to pull the completed courses in the individual's Army Training and Certification Tracking System (ATCTS) profile. Therefore please inform your personnel to update their ATCTS profile with the correct EE mail address by 25 May 15.
4. The fedvte helpdesk information is as follows: For Course Access, Password resets, and issues with accessing and taking training: Contact the VTE Online Training Portal Help Desk via email at support@usalearning.net or enter a help desk ticket yourself on the form below. To talk to a help desk representative, please call (202) 558-2203 or toll-free (888) 804-4510 Monday-Friday, between the hours of 8:30 AM and 6:00 PM EST, except holidays.
5. This office cannot help with accessing courses on this site we can only advise you on the courses that you must take in order to receive voucher assistance from this office. Please make every attempt to contact the fedvte helpdesk.
6. This site is a great venue to earn Continuing Education Credits for your commercial certification and to meet your Computing Environment certification/training requirement per DoD 8570.01-M. Please talk to your local Cybersecurity Manager on what courses to take to meet your Computing Environment certification/training requirement. Please keep in mind that courses taken for continuing education credits must be in line with the objectives of your certification.
7. This is a federal system and controlled by the DHS.

Program News Update

Welcome to the new, Federal Virtual Training Environment (FedVTE), your government-wide, online, and on-demand cybersecurity training system. With courses ranging from beginner to advanced levels, FedVTE exists to help the workforce maintain expertise and foster operational readiness.

Additional courses will be added to the system as they become available and lab simulations are coming soon!

To view existing courses, and those that are coming soon, feel free to download the [FedVTE Course Catalog](#).

New to cybersecurity and need help figuring out where to start? Take a look at the [FedVTE Training Pathway Guide](#).

Share the love and tell others about the free cybersecurity training available in FedVTE by posting a [tweet](#) in your office.

Warning! This is a Government system and may be accessed and used only for authorized use only. Unauthorized use of this system or the information on this system could result in criminal prosecution. Unauthorized use of this system may subject violators to criminal, civil, and/or administrative action. All information on this system may be intercepted, read, recorded, copied, and disclosed by and to authorized personnel for official purposes, including criminal investigations. Such information includes sensitive data encrypted to comply with confidentiality and privacy requirements. Access or use of this system by any person, whether authorized or unauthorized, constitutes consent to these terms.

When trying to register with an email that is not .gov, .mil, or .fed.us email address You will be prompted to enter a government sponsor's email address to approve your account. That government sponsor will then receive an email from the system requesting them to approve the account. Once approved, the individual will be able to continue normal registration procedures. Please keep in mind that Army can only track your completion when registering with you EE mail address.
